DEAN WILLIAMS

Darryl M. Williams, M.D., is the fifth physician to serve as Dean of the Louisiana State University School of Medicine in Shreveport since its authorization by the Louisiana Legislature in 1965.

Dean Williams assumed the deanship on September 1, 1986, bringing to his office a strong background in both the practice and administration of academic medicine at the School of Medicine in Shreveport.

A professor of internal medicine, Dean Williams is board certified in both internal medicine and hematology. He joined the faculty of the School of Medicine in Shreveport in 1977 as Chief of the Section of Hematology/Oncology, and held that post until 1985. Dean Williams maintains an active clinical practice.

Dean Williams served as Assistant Dean for Research Affairs then Associate Dean for Academic Affairs before being named Acting Dean in September 1985. Following an extensive national search, he was recommended as Dean.

During his tenure Dean Williams has worked closely with the Curriculum Committee and medical school departments to assure that the educational environment of the School of Medicine in Shreveport reflects the changing climate of medical education.

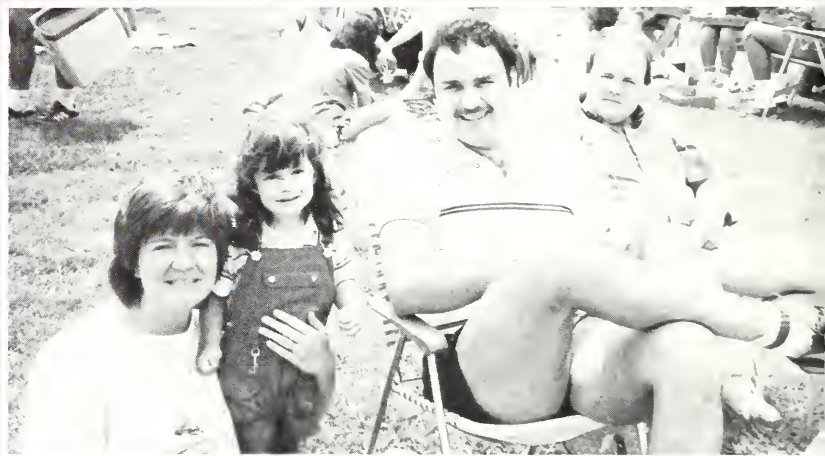

A concomitant priority of his deanship has been to attract faculty with national research reputations to enhance educational excellence for medical students.

I cannot rest
From travel;
I will drink
Life to the lees . . .

... All times I
Have enjoyed greatly,
Have suffered greatly,
Both with those
That loved me,
And alone ...

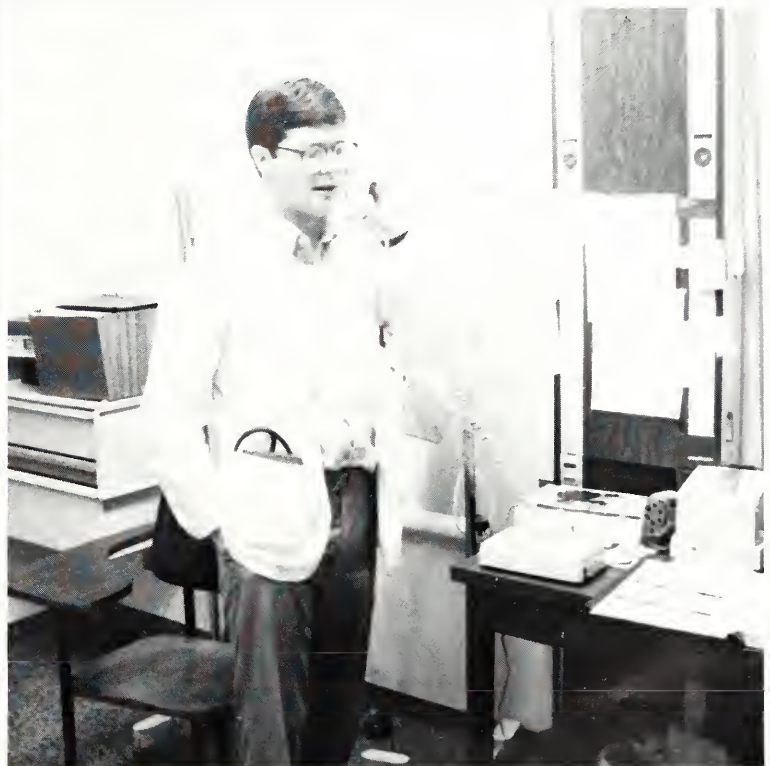

... I am a part of
All that I have met;
Yet all experience is
An arch wherethrough
Gleams that untraveled
World whose margin fades
Forever and forever
When I move ...

... How dull it
Is to pause,
To make an end,
To rust unburnished,
Not to shine in use!
As though to breathe
Were life! ...

... We are not
Now that strength
Which in old days
Moved earth and heaven,
That which we are,
We are- ...

. . . One equal temper
Of heroic hearts,
Made weak by
Time and fate,
But strong in will
To strive to seek,
To find, and not to yield.
-Alfred, Lord Tennyson

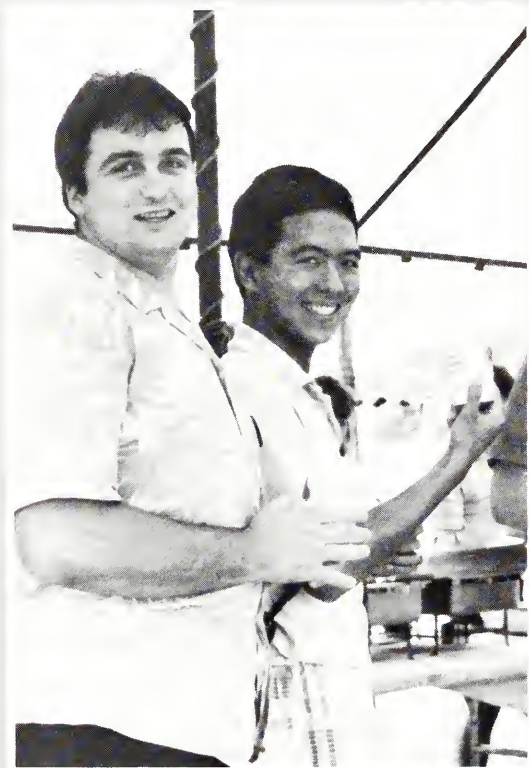

SPECIAL TIMES & EVENTS

BACK TO SCHOOL PICNIC

For some students it was a chance to renew friendships; for others it was just another free drunk. Whatever the case, Champion Lake was the place to be on September 6 to celebrate the calm before the storm of exam upon exam, late night upon late night, failure upon failure. Such is med school life!

FRESHMEN PARTIES

As a freshman the last thing you think you'll have time for is parties. Mom even said "you're not going to have time for fun - you're going to medical school." The first month of school saw registration, sophomore and executive council parties while the remainder of the year was filled with post Biochemistry, Gross Anatomy and yes even a few post-mortem-Physiology test parties as well as a pre-Casino cocktail party. Fun? Come on . . . we're in medical school!

CASINO PARTY

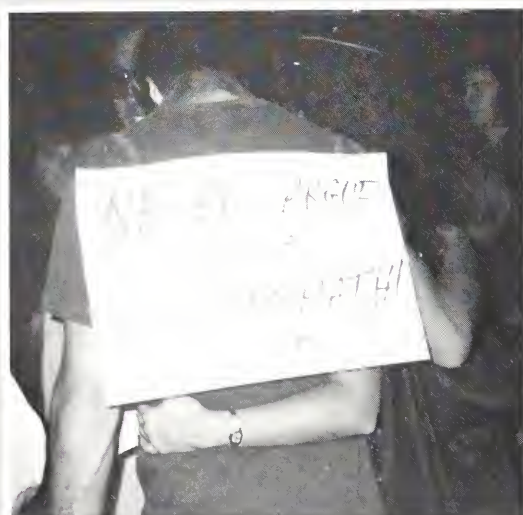

"Come on dice. Baby need new shoes!" This cry and many more could be heard on October 18 when "high stakes" gambling returned to the Sheraton at Pierremont. Fortunes were won and lost during the course of the evening while the bar was drunk dry. Following the gambling the dance floor packed to the music of Ferdy and the Popsicle until we were told we had to go home.

HALLOWEEN PARTY

(hal'o - en') n. (1) The eve of All Saints' Day. (2) A perfect reason for freshman medical students to dress up and release their collective id. This year's pagan rite was held at the glorious Peddada House of Horrors.

CHRISTMAS PARTY

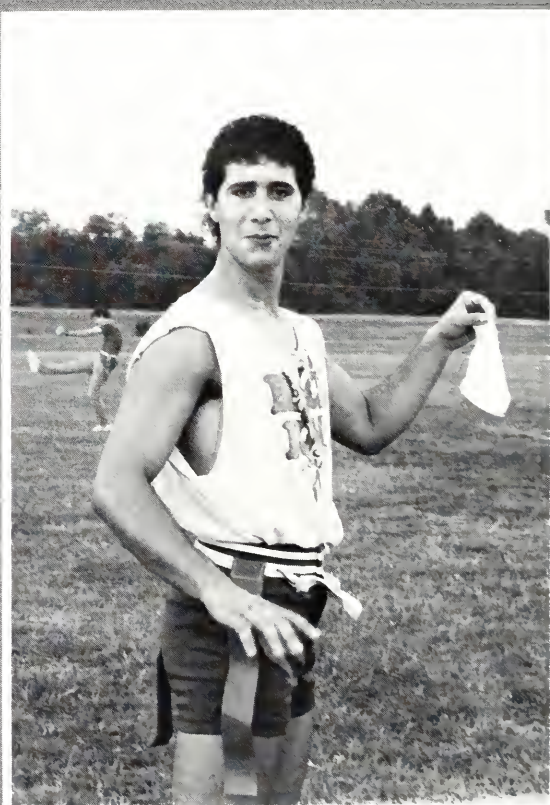

December 19, the end of fall semester. We'd been used, abused, and examined to exhaustion. But did we give up? Hell no! We gathered up our broken bodies and souls and headed to the Progressive Men's Club for the annual Christmas party. We danced to the sounds of Flyer until, like Cinderella at midnight, the band metamorphosized into the greasers Frankie Cashmere and the Sweaters who kept us hopping and bopping to good time rock 'n' roll until the lights came up and we realized the next day we had to return to the bosom of our families with heads that felt like Hiroshima the day after. But, it was all worth it.

FOOTBALL

The football season proved very competitive with the exception of the freshman's 40 man team which didn't manage to chalk up a win. Everyone had a good time playing and disputing the referee's calls (J. M.) The coed games also proved to be fun for all as the girls added enthusiasm and variation to the style of play.

SOFTBALL

Softball is synonymous with spring, that time of renewal and rebirth. Yes, it's that time when frustrated students turn into pseudo-jocks and stomp the dandelions into the dirt chasing after a white leather sphere. When not stressing out in the clinics or over the books, our compatriots managed to find the time to enjoy this great American pastime, with apologies to the flora.

TENNIS

While the flora was spared the fauna was not. Birds and butterflies fell from the sky as many a lob was lofted into the air. Advantages were few and loveless matches were abundant. Backhands countered forehands but underhanded moves earned the most points. Although members of the "Brat Pack" weren't on hand, both the fall and spring tournaments were successful.

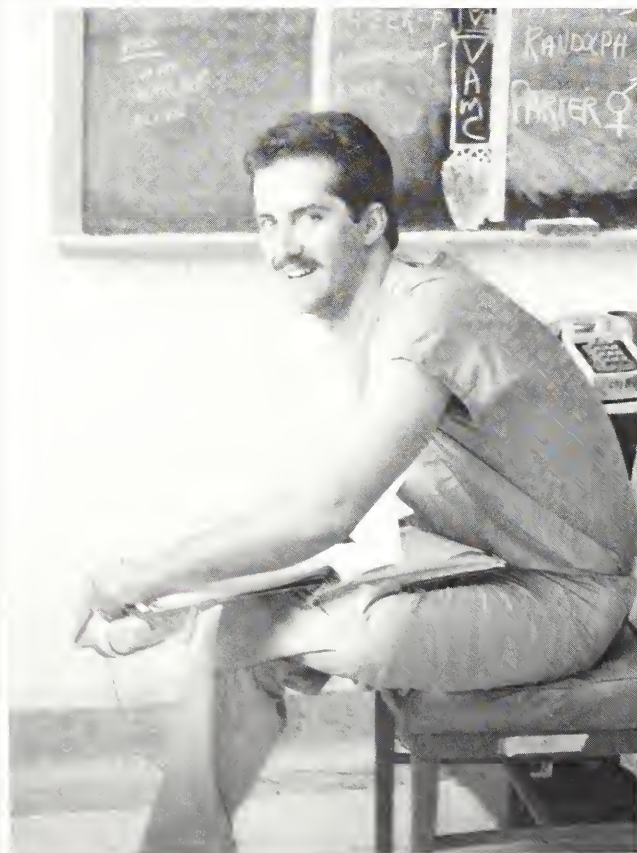

GOLF

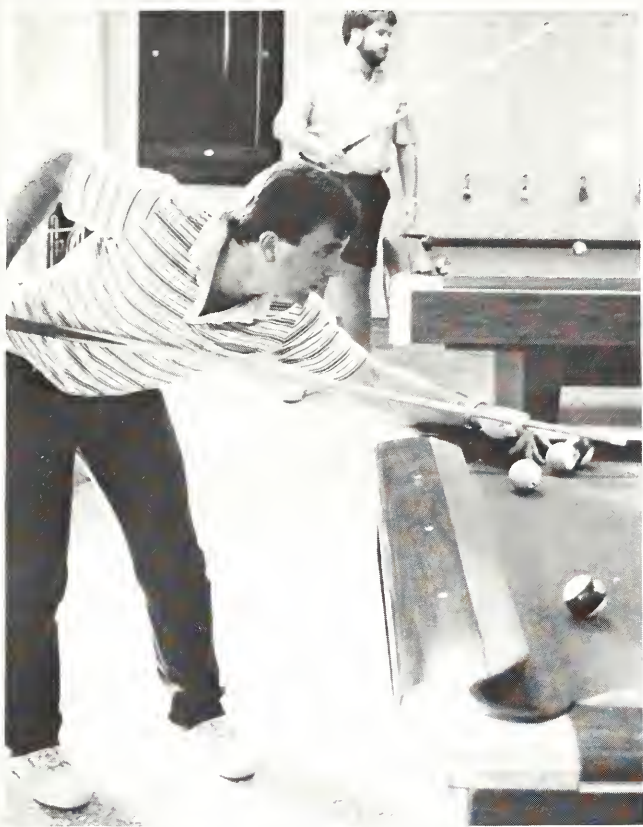

We all went out and had a great time in the bi-annual LSUMC golf tournaments this year. Turnout for the spring tournament was rather sparse due to the bad weather. Notable among participants in the fall tournament was the team of Jimmy "He got all of that one" McGarry, Dick "The Rock" Laborde, and Mark "Pecker" Peters whose score was exceeded only by the total number of beers they consumed.

BREAK TIME!

Ah! Break Time! That sacred ten minutes of the hour theoretically designated for student recess between lectures. A time to escape for a brief moment from the intellectual prison, the classroom. A time to change sleeping positions, or to pump untold amounts of quarters into sorted vending machines in hopes of acquiring some form of caffeinated or chocolate coated product that will keep you awake. A fleeting glimpse of escape, and then it's over, returning to the classroom right on time, five minutes late. The ritual begins anew, watching the minute hand sweep over the face of the clock with the speed of slow motion replay.

AWAY FROM SCHOOL

You study hard, you play hard. You blow it off, you still play hard. Yes, even in the midst of this intellectual regimentation we have chosen to undergo, we still find it necessary to allow our psyches to loosen the restraints. The hours we manage to steal away from the concrete jungle known as LSU-MC are priceless but perishable and thus must be used immediately.

ALLIED HEALTH

From the first hot summer in gross lab to the last hot summer in the hospital, students in the School of Allied Health Professions perform many vital functions. From fighting off the advances of medical students to research in labs and their invaluable help on the wards these students find their niche in the busy world of the medical center. Occasionally they rise from the depths of the hospital to partake in R & R. Intramurals are popular and the "party house" on Woodrow Street has seen many Allied Health students within its walls. It's even rumored several select P.T.'s were always the last to leave, or did they leave?

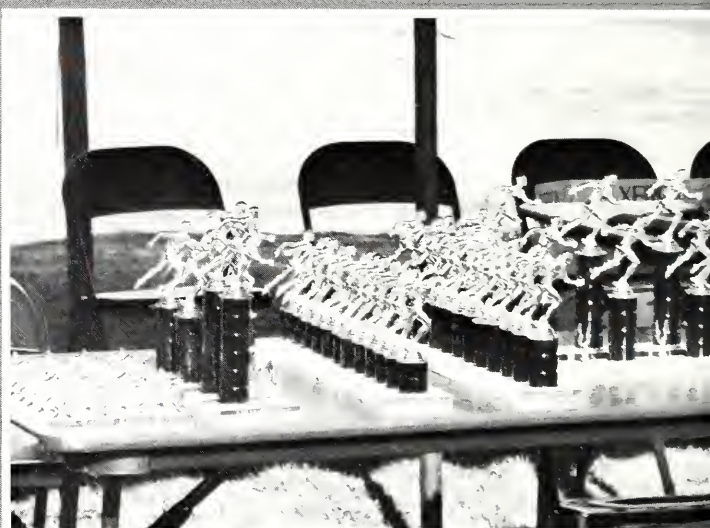

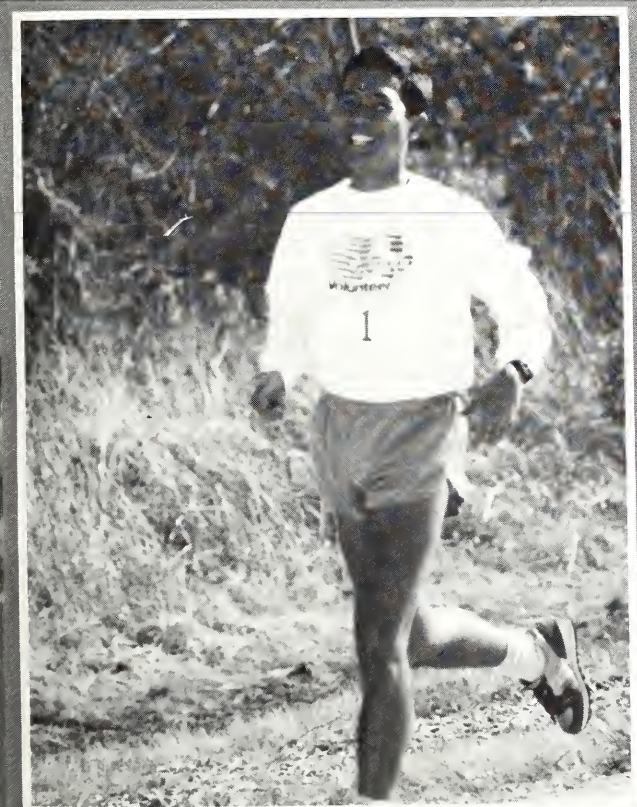

TIGER TROT

Do Tigers trot? Well maybe not the four-legged species but the two-legged supporters and members of LSUMC do and did on April 4. The weather was beautiful as the entourage left Airline High School on their way to a mile, 5K or 10K journey - whichever length of torture was desired. Huffs and Puffs were abundant but no houses were blown down.

The non-runners helped the "Trotters" celebrate the end to a successful race at the Student Union where everyone regained all the weight they had lost (just kidding).

CADAVER BALL

March 7. Gross anatomy was finally over and the freshmen were allowed to interact with the rest of humanity without getting looks of disgust. In honor of this dramatic change of events the freshman class invited the members of the school community to celebrate at Jodie's Place on the riverfront. Loose Talk provided the music for frolicking. And the evening was topped off by that rap classic, "We be failin'" performed by C=MD, otherwise known as Steve Wells et al. Welcome back to the real world kids.

PEDIATRIC PLAYROOM

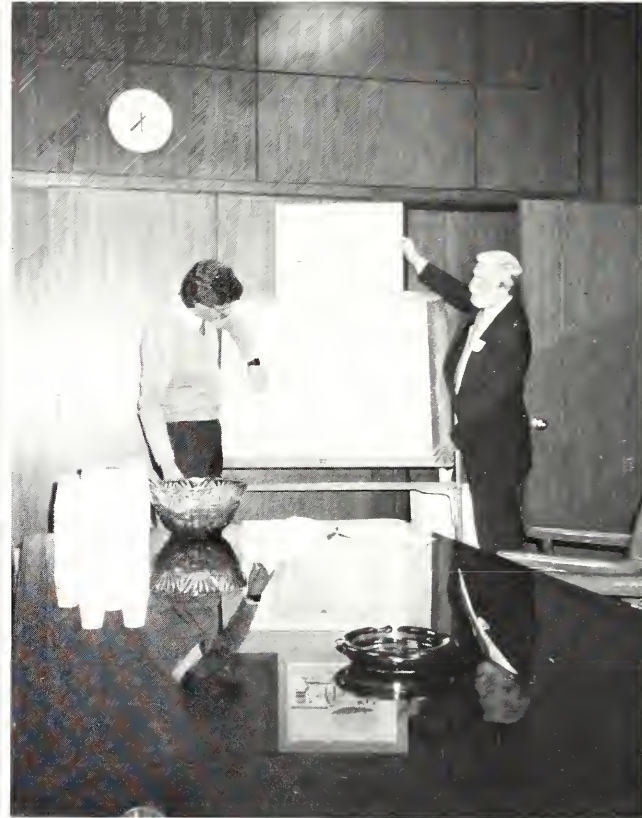

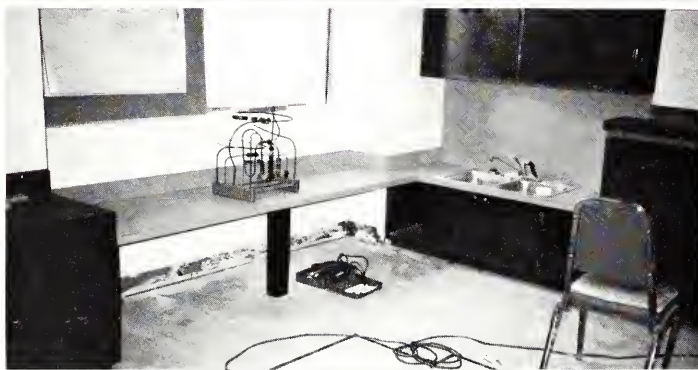

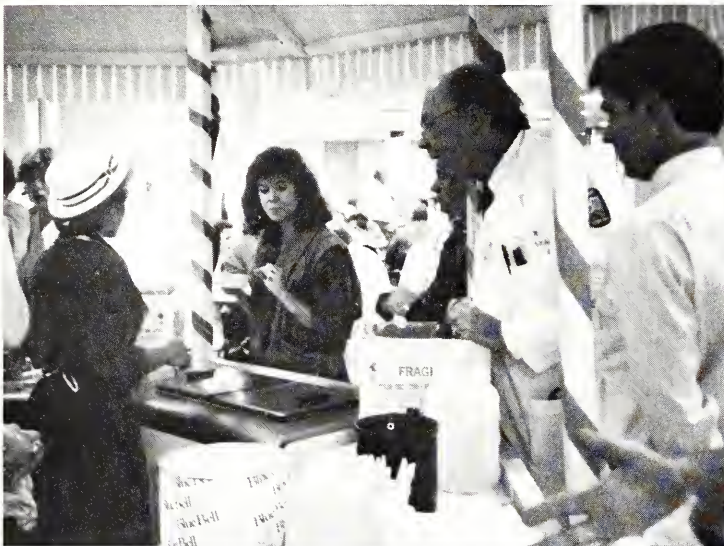

"A gift of the heart is the greatest gift indeed."

As a token of gratitude for a respectable medical education and in an effort to make this small corner of the world a little nicer place to live, the senior class of '87 left as its legacy a playroom for the pediatric ward here at L.S.U.M.C.

Monies and materials were provided through the generosity of the Ark-La-Tex and realization was brought about through the hard work of the seniors.

May this goodwill blossom for many years to come in the smiles of hundreds of hospitalized children.

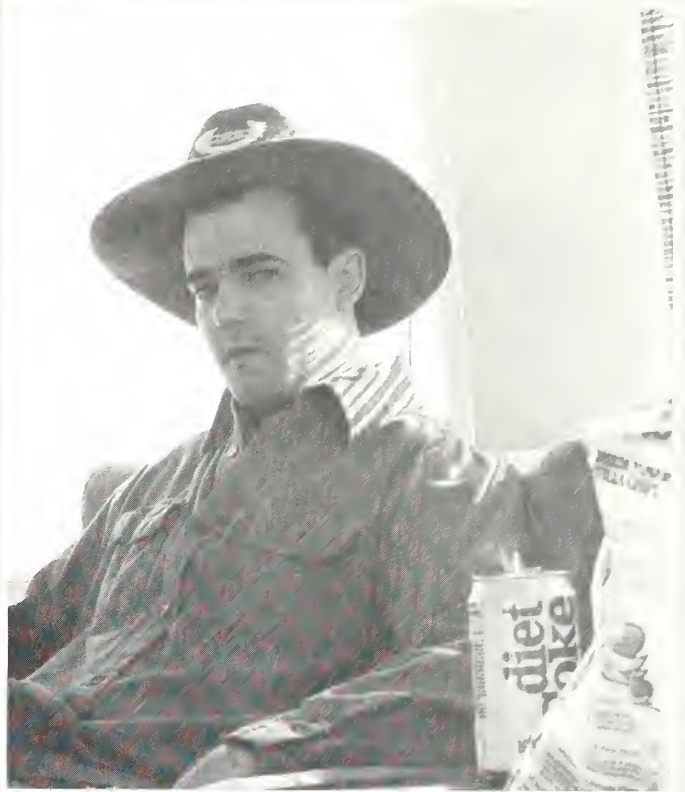

Dr. Fred

FACES

SOPHOMORE CRAWFISH BOIL

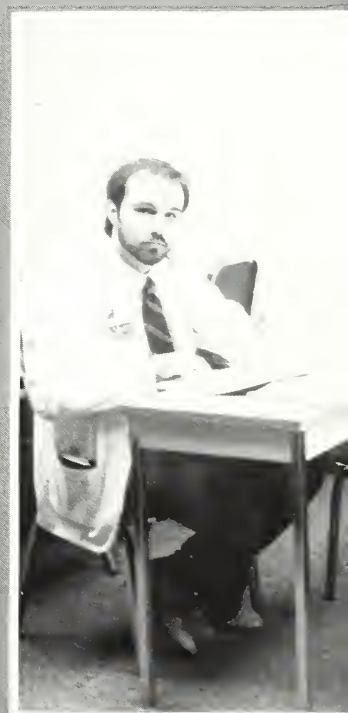

Two thousand pounds of hot crustaceans amongst new potatoes and corn on the cob. Combine them with a few kegs of beer, a volleyball net and some music and you've got a party! That's just what we did and the student union has not been the same since, and neither has the volleyball field; it's now a parking lot. So next time you park in the new lot think about all us that enjoyed ourselves there. I think we should put up a plaque or something!

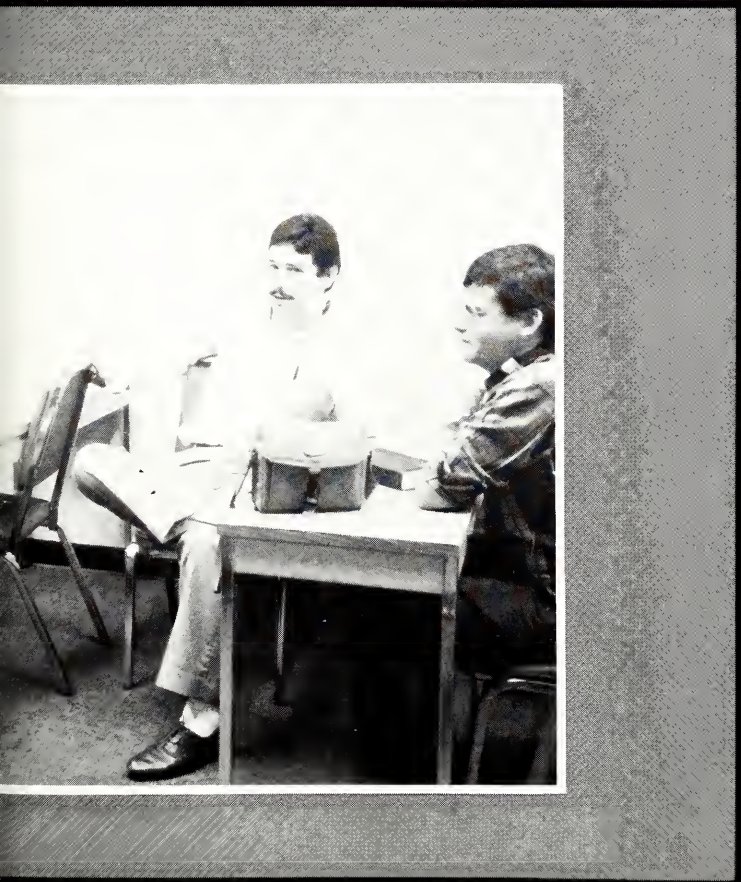

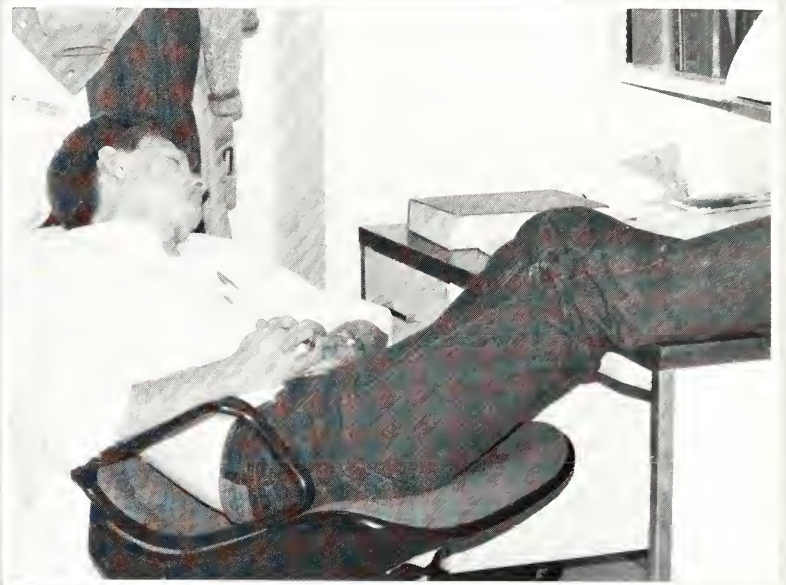

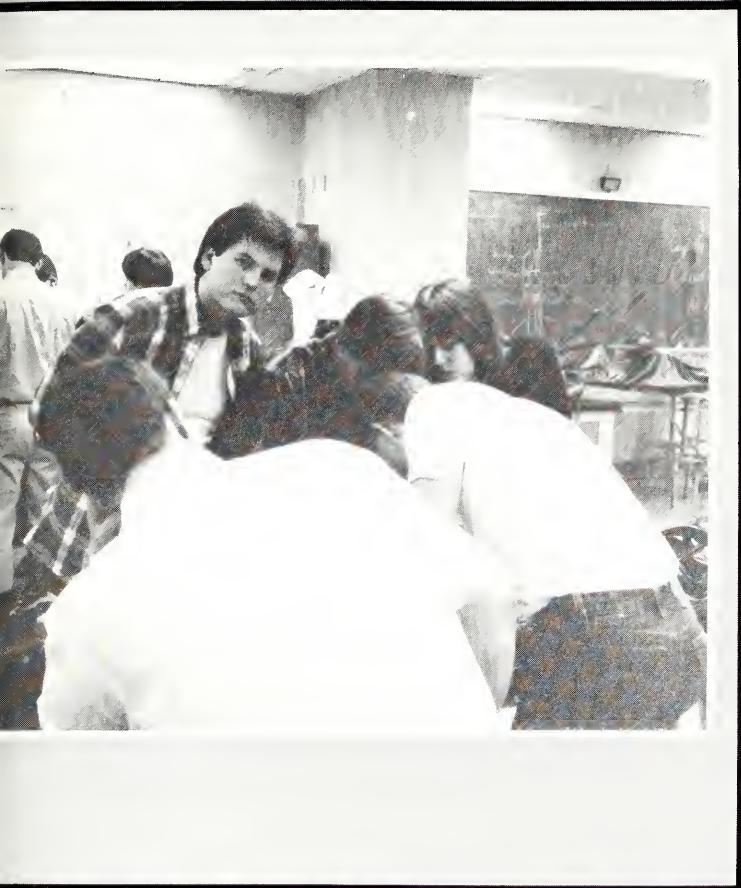

STUDY TIME

Contrary to what classmates want you to believe, we all must study to survive in this jungle called "higher learning." And by this point in our careers we have refined our techniques for retaining vast sums of knowledge. For some it's daily reading and memorization; for others its the two day cram and push. It seems that the only strategy we can all agree on begins with one question - "Anyone have any old tests?"

CRAWFISH BOIL

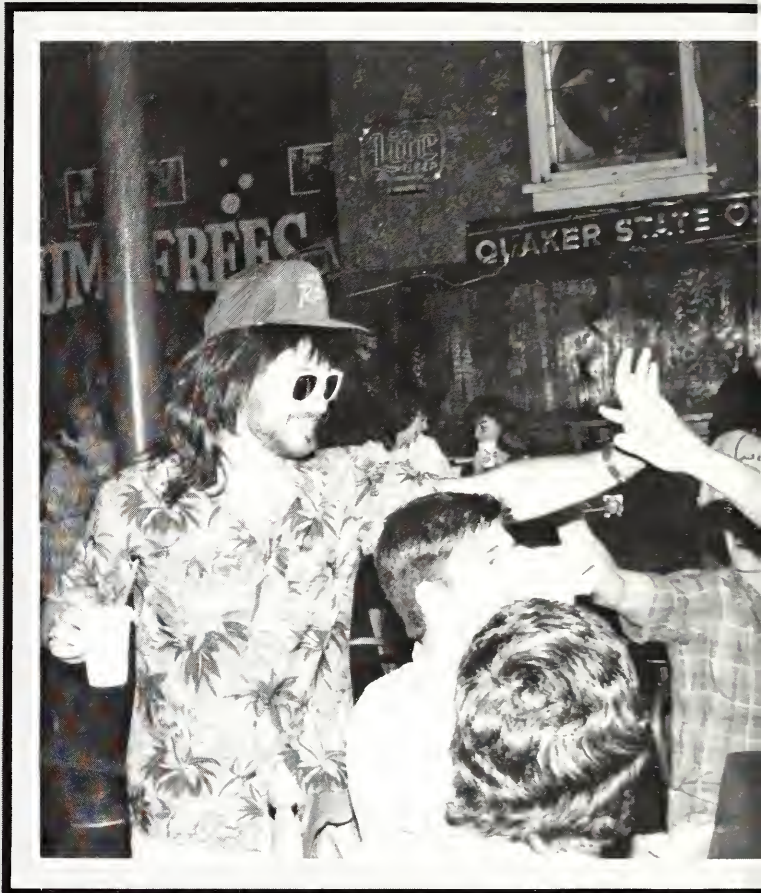

May 2 dawned grey and rainy, but undaunted preparations for the crawfish boil at Champion Lake proceeded. Then, lo and behold, the skies cleared, the sun shown brightly and the party became a reality. Billions of tiny crustaceans gladly leapt like lemmings into a sea of exotic spices to satisfy the palates of ravenous students and faculty, who then quaffed gallons of beer and soft drinks to douse the Cajun inferno. Those able to move afterwards found entertainment playing volleyball, throwing a frisbee, or shaking a leg to tunes provided by Razor.

MATCH DAY

Manna from heaven fell upon our seniors on March 18 when that annual day of gift giving known as Match Day presented them with their residencies. This curious rite of letting a computer decide your future was celebrated in time honored tradition at Humpfrees Best in the Square, where there was much rejoicing in the kingdom. Yea!

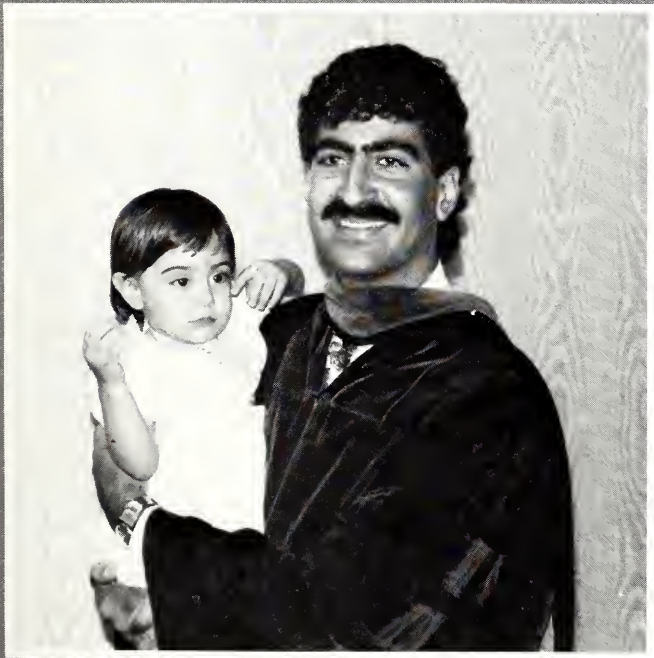

GRADUATION

The day every student hopes to live to see. Four years of endless study, sleepless nights, menial tasks and wondering if you have the right stuff to be a physician have led you to the day when you are finally an M.D.

Graduation day is a culmination of all the toil and tears, from Gross Anatomy to the National Boards. And most importantly, it is the day those new doctors taking the Oath of Hippocrates fully understand the responsibility of their newfound position in the community. Congratulations.

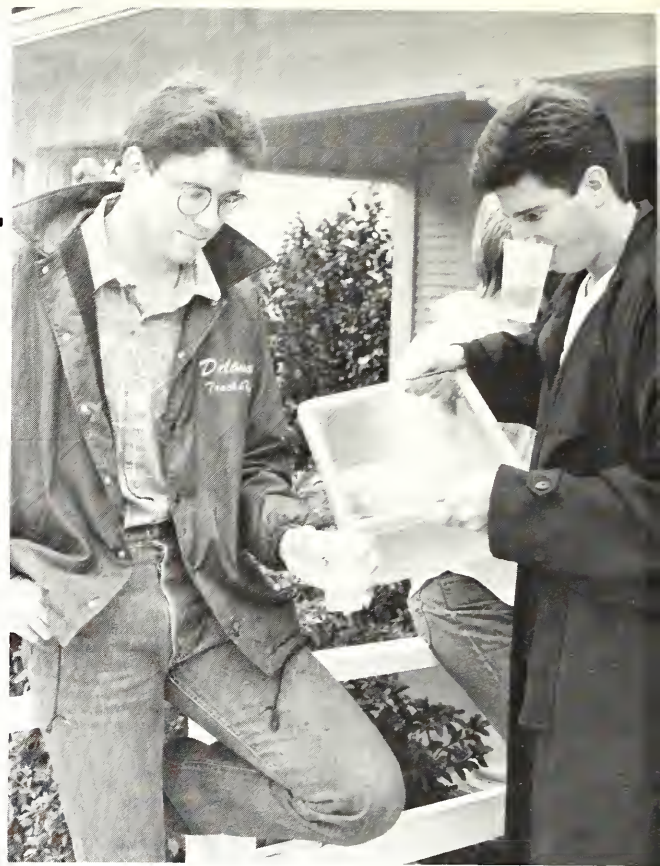

CLASSES

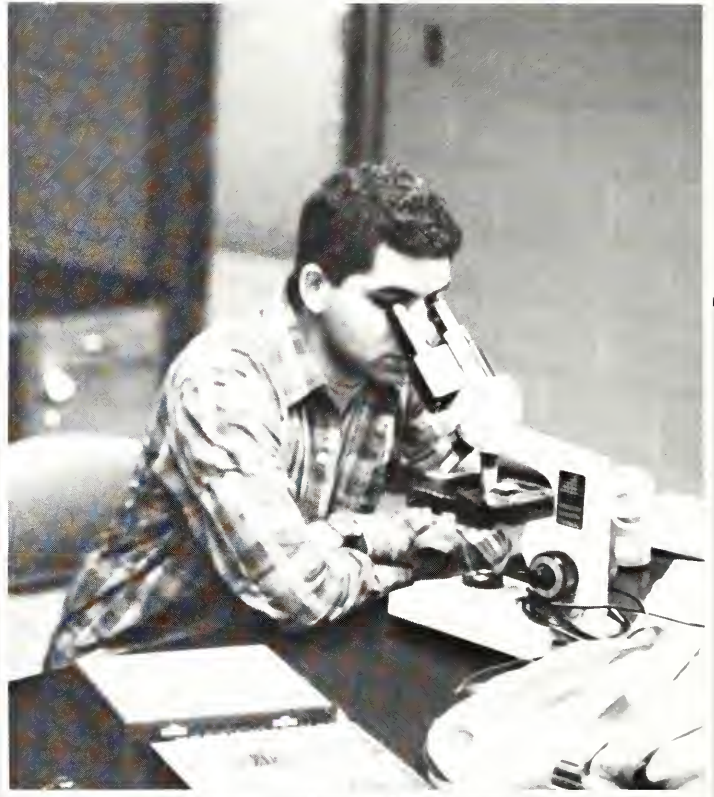

FRESHMEN

We were a group of strangers, thrown together only because of our quest for a medical education and desire to become physicians. In one fast week we were "oriented", armed with CPR skills but not yet dangerous. Together we were enlightened about the "Rigid Rod of Reality". Little did we know of the numerous imaginative ways the "Rod Handlers" would use it. The 8th floor of the medical school became the center of our universe, but at times we were tempted by the Call of the Wild

SOPHOMORES

The only way to describe us is diversified. From "the library closes early!" to "what do you mean happy hour is over!" From concert pianist to surfer, linebacker to engineer, party animal to study monster. On the whole we were described as one of the best classes, scholastically. The Micro department was very impressed with us, then again they're impressed with fungus on rocks.

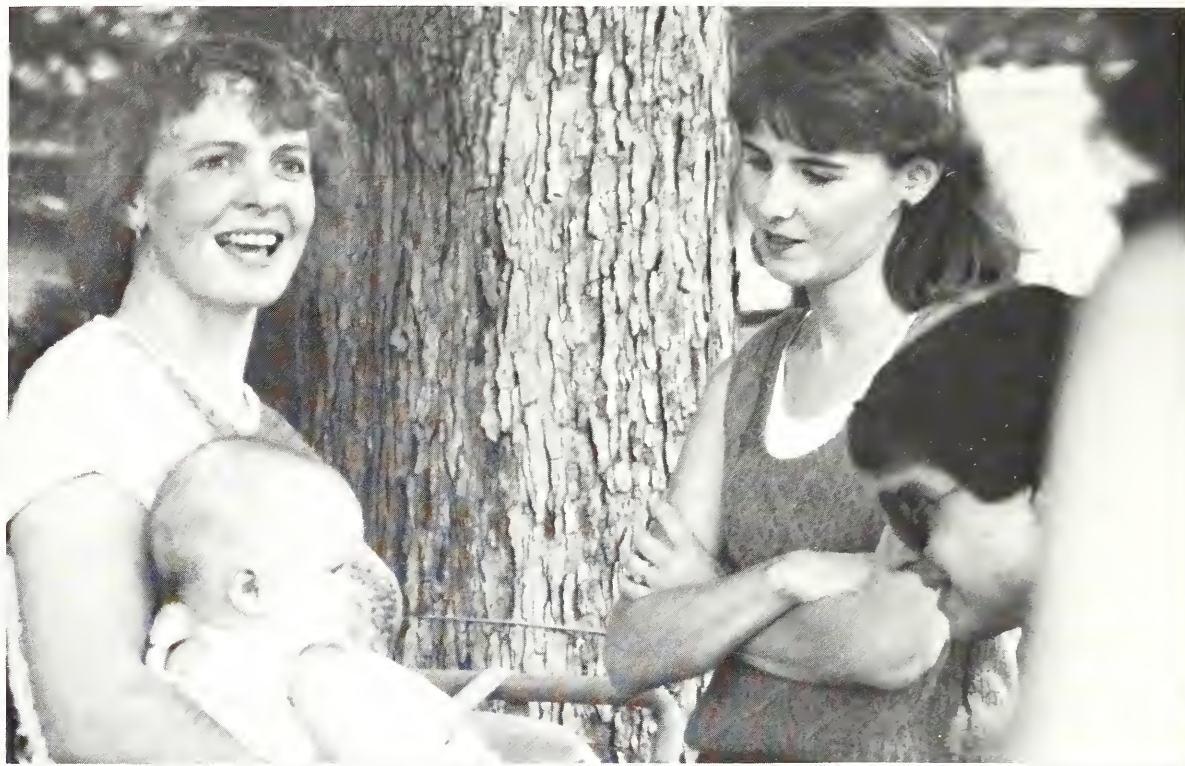

Socially we also excelled conquering far away places like Dallas, where we met "real women" and Jackson, Mississippi "no one told me she was Dr. McDonald's daughter!" and last but not least Florida! "old enough to set the table, old enough to eat!"

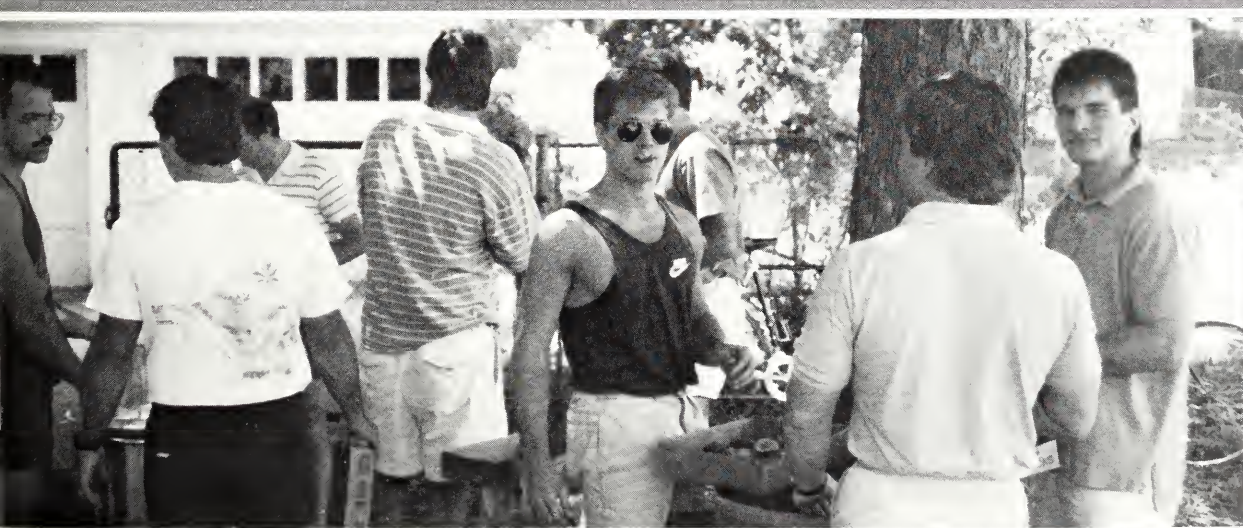

Sophomore year, we studied harder than we ever had but also played harder than we ever had!

JUNIORS

The excitement and butterflies in our stomachs were great when we realized we were responsible for the birth of a child in OB/Gyn.

Sometimes the frustration was overwhelming . . . we were paying them to be their "go-fors". From the early mornings and late nights of Surgery to the more relaxed atmosphere of Psychiatry, we endured and realized that the hard work is worth it. One more year - the "easiest", at least that's what the Seniors say. Look out Match Day, here we come!

SENIORS

For some the freshman year seems like forever ago and for others like yesterday. Remember the sights, sounds and smells that have shaped our medical school careers? Who could forget Gross Lab or maybe the smell of freshmen? How about the fear and relief cycle we all went through during the deluge of tests the first two years and the sleepless nights and miles of errands run during the third? But there were fun times too . . . endless parties and some of the best friends one could ever hope to have. We have survived the bad times and enjoyed the good ones and so we finish yet another chapter in our lives and start anew.

ADMINISTRATION

The School of Allied Health Professions was established by the Board of Supervisors April 2, 1970, and became operational July 1, 1970. At present, the School of Allied Health Professions in Shreveport has six departments: Cardiopulmonary Science, Children's Center, Communication Disorders, Medical Technology, Occupational Therapy, and Physical Therapy. All educational programs have been approved by the appropriate State agencies and have received full accreditation by appropriate professional organizations.

Compliments of THE SHREVEPORT MEDICAL SOCIETY

THINGS ARE CHANGING IN THE MEDICAL FIELD.

But at Bossier Medical Center, there's one thing that will never change — our support for the physician. We know our success is linked with the physician's success. That's why more and more physicians recognize the advantages of associating with Bossier Medical Center:

- Two decades of dedication to developing quality health care services.
- State-of-the-art equipment.
- Support in specialty fields.
- Well-trained, caring professional staff.
- Easy access to administration.
- A genuine interest in your needs.
- Bossier's growing population and sound economy.

If you're investigating practice opportunities, you should talk with hospital management and medical staff members about your future at Bossier Medical Center. Call us at **227-6113** to schedule a meeting.

IN MEMORIAM

During the past year students, faculty, and staff of LSUMC-S lost a dear friend. Mayo Drake, Director of the Medical Library and Professor of Medical Library Science, died on December 21, 1986, following a long illness.

Mr. Drake was a native of Tallahassee and spent his early professional life in Florida. He came to Shreveport in 1968 as one of the earliest faculty members recruited by Dr. Edgar Hull for the new LSU School of Medicine. The Library at that time consisted of assigned space in the basement of the Veterans Administration Hospital and had no books. Mr. Drake became actively involved in collecting library materials from individuals and institutions throughout the country, acquiring many books as gifts to supplement those purchased with State funds, in order to build a Library to support the educational, research, and patient care programs of the Medical Center. Under his direction the Library has since grown to over 90,000 volumes, a collection comparable to those of older medical schools and one justifying the Library's active participation in local, regional, and national networks.

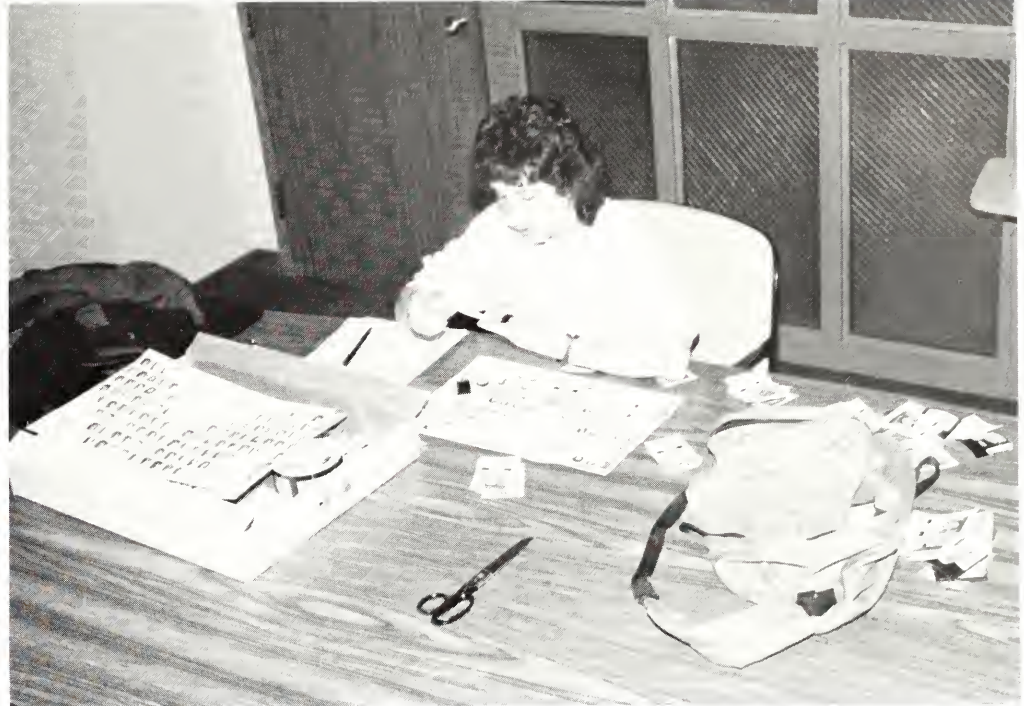

We share a responsibility to preserve, to maintain, and to continue to build upon this valuable heritage which was so carefully founded by one completely devoted to this institution and its objectives. The Library operates in accord with the standards, patterns of service, and cooperative effort so well demonstrated by Mr. Drake, and the staff is dedicated to continue in his tradition.

The Mayo Drake Memorial Fund has been established in his memory.

PULSE

Dale Guillory · Co-editor

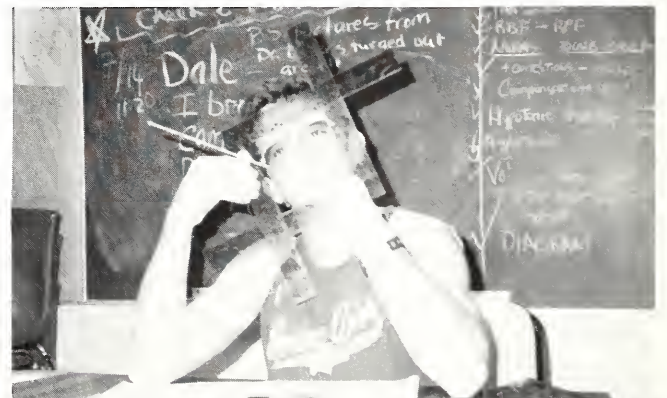

Kim Kilgore · Layouts; Mary Oliver · Copy

The purpose of a yearbook is to preserve the memories of an entire year filled with a full spectrum of emotions. It is our hope that in the years to come the 1987 edition of the Pulse will help you to recall all of the memories that made this year special. This is our tribute to you, the people of LSUMC-Shreveport.

Thanks from our hippocampi to our temporal lobes,

The Staff, Pulse 1987

The 1987 PULSE is dedicated to those students who have generously taken time out of already busy schedules to participate in those extracurricular activities that benefit the entire student body.

It is these people who make LSU Medical School more than just an academic experience.
